大問4A Amazing experience

メールを読み、次ページのQ23-Q25に答えなさい。

From: Mark Jones
To: Brian Smith
Date: June 2
Subject: Amazing experience

I hope you're doing well. I went to a great art gallery last Sunday. There were so many paintings there. Some of them were really colorful, but others were not. The sculptures were interesting, too. I spent a lot of time at the gallery walking around and looking at everything. It was a wonderful experience to see all the art.

As I was leaving, I saw a poster about an event next weekend at the community center. There will be a weekend art workshop from 10:00 a.m. to 5:00 p.m. on Saturday and Sunday. We can learn about painting and making sculptures with clay. You said that you wanted to try doing something creative, so I thought this could be fun for us. Would you like to go?

Also, if you're free after the workshop finishes on Saturday, we could go for dinner at my favorite place to eat. It's called Charlie's Diner, and it's not far from the community center. Have you ever been there? The chef, Charlie, is great, and he makes the best steaks in the city. I'm sure we'll both be hungry after making art all day. If you want to join me, let me know, and I'll reserve a table.

大問4B 長文

本文を読み、次ページのQ26-Q29に答えなさい。

Local Newspapers

In the past, many people regularly read local newspapers. Local newspapers are newspapers that give information about important events in the areas where they are made. Companies that make local newspapers need workers to write articles, take photographs, put these things together, and print the newspapers. They also need workers to deliver the newspapers to shops and people's homes. Local newspapers are important sources of news about their communities. At the same time, they are also important sources of jobs.

Since around the mid-2000s, more and more people have stopped buying local newspapers and started reading the news online. They do this because news websites are more convenient than newspapers. Also, many news websites are free. However, the most popular ones focus on national and international news. They have few local news stories or none at all. As a result, an increasing number of people do not know much about what is happening in the areas where they live.

Many local newspaper companies have tried to make their own news websites. However, it can be expensive and difficult to do this. They often need to hire specialists to help them. At the same time, these companies are making less money because fewer people are buying their newspapers. Because of this, many local newspaper companies have closed, and their workers have lost their jobs.

Local newspapers are also very important to local businesses. A small, local business can advertise its products or services in a local newspaper at a low price. By doing so, the business can get new customers. It costs a lot of money to put an advertisement in a national newspaper or on a popular news website. Without local newspapers, it is hard for small, local businesses to advertise. Just like local newspaper companies, many of these businesses have been facing difficult times.
