大問3B Beth and The Book Worm

3通のメールを読み、後の設問に答えなさい。

From: Beth Greene
To: The Book Worm
Date: September 4
Subject: Looking for a book

Hello,

My name is Beth, and I'm looking for a book called Into the Forest. It was written by my favorite writer, Charles Vance. I went to the Readers Rule bookstore in Bakersville last Friday, but they don't sell it. Charles Vance wrote it 30 years ago, so it's a little old. On Saturday, I went to my friend's house, and he told me about your store, The Book Worm. He said that you sold used books. I checked your website yesterday, and I found your e-mail address. Do you have Into the Forest in your store?

Sincerely,
Beth Greene

From: The Book Worm
To: Beth Greene
Date: September 5
Subject: Sorry

Hello Ms. Greene,

I'm Sam Winters, and I'm the owner of The Book Worm. I love Charles Vance's books, too. Sorry, but I don't have Into the Forest in my store right now. You should check some online stores. You can probably find it on www.warmwords.com. Also, have you looked for that book at the library? Maybe you can borrow it. People bring old books to my shop every day, and I often buy them. If someone brings Into the Forest to my store, I'll buy it, and then I'll send you an e-mail.

Best regards,
Sam Winters

- 4 She doesn't like shopping on the Internet.

大問3C 長文

本文を読み、次ページのQ26-Q30に答えなさい。

Lilian Bland

Lilian Bland was born in 1878. She was different from most girls at that time. Lilian enjoyed hunting, fishing, and riding horses. She also practiced a martial art and studied art in Paris. In 1900, she moved to Ireland with her father. By 1908, she was working for newspapers in London.

In 1909, Lilian's uncle sent her postcards. One of them had a picture of Louis Blériot on it. Blériot was a pilot, and he built his own plane. He was the first person to fly a plane across the English Channel. His plane had an accident when it landed, but Blériot wasn't hurt. His story soon became famous.

Lilian saw the postcard and became interested in planes. She decided to design a plane and build it by herself. She used wood and simple things to build the body. Then, she bought an engine and put it on the plane. It took her one year to make the plane, and she finished it in 1910. She named the plane "Mayfly." Then, she flew it for the first time. It stayed 10 meters high in the air for 400 meters.

Lilian wanted to build a new plane. However, her father thought that flying was too dangerous for his daughter, so she stopped flying. Then, Lilian got married and moved to Canada. In 1935, she returned to England and enjoyed a simple life there until she died in 1971. Today, people remember her because she was the first woman to build and fly her own plane.
