大問3B Tim's Farm Visit

3通のメールを読み、後の設問に答えなさい。

From: Tim Johnson
To: Lucy Johnson
Date: May 14
Subject: Something to share

Dear Aunt Lucy,
I hope you're doing well. I wanted to share my experience from a school trip last week. We visited a big farm. It was amazing! We saw cows, goats, ducks in a pond, and so much more. The farmer said we could feed the goats, and they were really friendly. We also looked around a vegetable garden, and our teacher gave us some seeds. I got seeds for carrots and lettuce. The farmer taught us how to plant them, and I can't wait to plant them at home! By the way, there was a small wooden bridge near the pond. When I crossed it, I saw many fish. It reminded me of my visit to your house last summer when we went fishing together. Do you think I can visit this summer and show you my photos?
Love,
Tim

From: Lucy Johnson
To: Tim Johnson
Date: May 15
Subject: Sounds fun

Hi Tim,
Your school trip sounds wonderful! When I was a child, I often helped my grandfather in his garden. We grew tomatoes, beans, and corn. They were always delicious! After I read your story about the wooden bridge, I thought about the pond near my old house. I loved sitting there and watching the frogs. Sometimes I tried to catch them just for fun! By the way, Uncle Bob and I are planning a camping trip next month. We'll go to Blue Lake. Would you like to join us? I hope you can come. I'm looking forward to seeing those photos!
Lots of love,
Aunt Lucy

大問3C 長文

本文を読み、次ページのQ26-Q30に答えなさい。

The Quokka

The quokka is a special animal from Australia. They are marsupials, like kangaroos, but smaller. They have round bodies about 45 centimeters long. Their ears are small and round, and they have a black nose.

Many quokkas live on Rottnest Island. Rottnest Island is near the city of Perth, and its name came from the Dutch word for "rat's nest." Long ago, a man named Willem de Vlamingh thought quokkas looked like big rats.

Quokkas are also found on Bald Island and in other parts of Western Australia. They like living in areas with tall grass, can climb trees, and mostly eat at night. On mainland Australia, the number of quokkas has gone down. This is because the environment has changed there. Also, there are wild cats and foxes that hunt them. The weather is also changing, and this is not good for them.

Many people think quokkas are cute, and these days, taking photos with them is popular. This became even more popular after an Australian actor took pictures with a quokka and shared them on the Internet. The morning and the evening are good times to take photos with them. However, some people who want to protect quokkas say there are some important rules for taking photos with quokkas. For example, people should wait for quokkas to come close before they take photos with them, and they should not touch quokkas. Also, they say people should not feed them because human food can make them sick.

大問3C 長文設問 Q26-Q30
