**解答方法**　各問について、最も適切なものを1つ選び、問題冊子の選択肢に〇を付けてください。

正解は最終ページにあります。すべて解いてから確認してください。

## 大問1 語彙・文法 Q1-Q4

次の(1)から(17)までの( )に入れるのに最も適切なものを1，2，3，4の中から一つ選びなさい。

*(1)* There are not enough doctors and nurses in some areas of the country, and ( 1 ) a consequence, there are long waiting times at many hospitals and clinics.

**1** with　**2** as　**3** from　**4** to

*(2)* ***A:*** I heard that the boss chose Julie instead of Tim to be the new manager of the sales team.
***B:*** ( 2 ), I'm not surprised. I don't think Tim has enough experience to be a manager.

**1** Doubly　**2** Heavily　**3** Mainly　**4** Frankly

*(3)* Many fruits and vegetables change color when they are ( 3 ). This helps humans and other animals know when they are ready to eat.

**1** handy　**2** dizzy　**3** ripe　**4** narrow

*(4)* Abigail decided to move to the countryside because she wanted to be ( 4 ) by nature. She loves seeing the plants and animals that live around her new home.

**1** pursued　**2** resumed　**3** surrounded　**4** bothered

# 大問1 語彙・文法 Q5-Q9

次の(1)から(17)までの( )に入れるのに最も適切なものを1，2，3，4の中から一つ選びなさい。

*(5)* The accident happened on a busy shopping street in the middle of the day. As a result, it was ( 5 ) by quite a few people.

**1** conveyed　**2** reserved　**3** handled　**4** witnessed

*(6)* Tim started ( 6 ) during his speech because his throat was dry. He decided to drink some water before continuing to speak.

**1** sweating　**2** coughing　**3** vanishing　**4** voicing

*(7)* The Sioux, Cherokee, and Apache are examples of Native American ( 7 ). These large groups each developed their own languages, customs, and cultures.

**1** resorts　**2** gears　**3** tribes　**4** burdens

*(8)* ***A:*** Did you hear about the new contract with the supplier?
***B:*** Yes, we need to ( 8 ) better prices. They're charging us too much.

**1** worship　**2** reproduce　**3** negotiate　**4** scatter

*(9)* ***A:*** Patricia, what happened to your elbow? Are you all right?
***B:*** Oh, I fell off my bike and hit the ( 9 ) pretty hard. But I'll be fine.

**1** fossil　**2** pavement　**3** blanket　**4** slide

# 大問1 語彙・文法 Q10-Q13

次の(1)から(17)までの( )に入れるのに最も適切なものを1，2，3，4の中から一つ選びなさい。

*(10)* Richard's hard work at his company led to a ( 10 ). He is now the head of the sales department.

**1** construction　**2** reflection　**3** promotion　**4** sacrifice

*(11)* Rebecca has a very busy schedule, but she always tries to ( 11 ) for her friends and family.

**1** make time　**2** fade away　**3** set up　**4** put aside

*(12)* Although Richard likes his colleagues so much and enjoys his job as an engineer, his company does not ( 12 ). Now, he is thinking about finding a new company which provides a better salary.

**1** find out　**2** go through　**3** get together　**4** pay well

*(13)* Many people say that smoking is bad for one's health. Because of this, Greg decided to ( 13 ) on smoking. He is trying to only smoke half a pack a day.

**1** cut down　**2** leave behind　**3** speak up　**4** show up

# 大問1 語彙・文法 Q14-Q17

次の(1)から(17)までの( )に入れるのに最も適切なものを1，2，3，4の中から一つ選びなさい。

*(14)* ***A:*** Do you ever ( 14 ) our old high school?
***B:*** No, not very often because I moved out of town to attend university.

**1** come off　**2** take off　**3** come across　**4** go by

*(15)* ***A:*** What are you and your brother ( 15 ) this time?
***B:*** He wants to go to a rock concert for his birthday, but I want to go to a musical.

**1** engaging in　**2** confusing by　**3** spilling on　**4** disagreeing on

*(16)* When Ms. Johnson retired, Mr. Smith ( 16 ) as the head of the sales department. He had been working in that department for ten years.

**1** took her place　**2** gave her attention　**3** made her way　**4** lost her temper

*(17)* The two thieves tried to ( 17 ) with a bag of money, but a security guard stopped them. They ended up escaping without taking the money.

**1** put up　**2** make off　**3** keep up　**4** hang out

# 大問2A 長文の語句空所補充 Q18-Q20

次の英文A，Bを読み，その文意にそって(18)から(23)までの( )に入れるのに最も適切なものを選びなさい。

## Animals in the Cold Sea

Bowhead whales live in the Arctic Ocean. Its water is very cold. To stay warm in the cold water, they have thick skin and fat under it. Their head is so big that it sometimes covers one-third of their body. This large head is critical for taking in air while they swim in the cold sea. They use their head to ( 18 ). Otherwise, they could not push their heads out of the water.

Plankton, small creatures living in the ocean and the food of bowhead whales, move up and down in the sea. They stay in the deeper parts of the ocean during the day to avoid being caught by fish that depend on their vision to find food. Plankton start to move up in the afternoon. They stay near the surface of the ocean at night. By doing so, they can ( 19 ) easily while avoiding being eaten by fish. They eat other even smaller creatures that float around there.

The diving patterns of bowhead whales had not been clear. New research showed they followed a special diving cycle. Experts found they dived deeper in the afternoon. This allows them to catch plankton that move up in groups. They can open their big mouth while they dive down and eat many plankton at once. ( 20 ), the researchers discovered two whales diving at the same time, even when they were one hundred kilometers apart. This shows the possibility that they communicate with sound through the water.

*(18)*

**1** look stronger than other whales　**2** break through thick ice to breathe　**3** eat large animals with fins　**4** attack dangerous sharks

*(19)*

**1** find their food source　**2** swim across the ocean　**3** dive to the bottom　**4** get light from the moon

*(20)*

**1** At least　**2** Thus　**3** Interestingly　**4** To put it simply

# 大問2B 長文の語句空所補充 Q21-Q23

次の英文A，Bを読み，その文意にそって(18)から(23)までの( )に入れるのに最も適切なものを選びなさい。

## Smørrebrød

Food is like a mirror that reflects cultures. If people look at the food of a country or a region, they are more likely to understand the community, what people like, and how people live. The ingredients and how they are cooked and eaten show the lifestyles of the people. This is probably why many people like to enjoy local food when they travel. ( 21 ), when travelers skip local food, they often miss out on a deeper cultural experience and end up with only a limited understanding of the culture.

One such food that travelers should not miss out on in Denmark is Smørrebrød. This is because this food expresses the culture and lifestyle of Denmark. It is an open sandwich with different ingredients placed on top of a slice of bread. ( 22 ). As most people were involved in farming in the nineteenth century, they put the food from last night's dinner on a slice of bread and brought it to the farm to eat while working.

The Industrial Revolution helped Smørrebrød spread all over Denmark. Since people working in factories could not go home for lunch, food placed on bread used as a plate was convenient. At first, people gave the bread to animals. Later, they ( 23 ), soaked with juice from the toppings. This led to the spread of the idea that the bread was not just a plate but part of the food itself. From then on, Smørrebrød was recognized as an open sandwich.

*(21)*

**1** At first　**2** At the same time　**3** In the meantime　**4** In short

*(22)*

**1** It was created because of people's lifestyles　**2** It became a luxury dining option　**3** It began with the king's cooking　**4** It was imported from other countries

*(23)*

**1** threw it away　**2** began to sell it　**3** found it delicious　**4** thought it was ruined

# 大問3A Housing Options

メールを読み、次ページのQ24-Q26に答えなさい。

From: Mia Roberts
To: Kyle Webb
Date: May 24
Subject: Housing options

Thank you for your earlier e-mail asking about housing options. We are pleased to provide you with the necessary information. Our school policy states that all first-year students must live on campus. You have the option to choose either living by yourself or sharing a room with a roommate. You cannot change your arrangement until the end of the first term. You will have the chance to change your arrangement during the winter break.

If you decide to have a roommate, we will take into consideration what you like. We do this so that we can make sure all of our students can live comfortably. Things we consider include whether you are a morning person, what your hobbies are, and what language you would like to speak, but are not limited to these. Also, please note that different housing units have different amenities. Some units have a kitchen, others have a shared one on each floor, and there are also buildings without a kitchen.

We will begin the arrangement once your online form is turned in and your money is received. It generally takes about two weeks for the arrangement to be completed. We recommend applying by the first week of August to make it in time for the start of the term in the first week of September. If you have other questions, please do not hesitate to contact us.

# 大問3A Housing Options

前ページのメールを読み、Q24–Q26に答えなさい。

*(24)* According to the school policy, what housing choices do the first-year students have?

**1** They can live in apartments both on campus and off campus.
**2** They have to share rooms during the first year.
**3** They have to live on campus but can choose to live alone or share.
**4** The Student Housing Office decides whether students live alone or share.

*(25)* How does the Student Housing Office decide on who will be roommates?

**1** It separates students by where they are from and then puts them together randomly.
**2** It allows students to choose their own roommates.
**3** It puts students of similar school performances together.
**4** It matches students based on personal tastes.

*(26)* In order for students to have their housing ready before the term starts in September, students should

**1** make their payment by early August.
**2** send an application form by letter.
**3** tell the names of their roommates to a teacher.
**4** call the Student Housing Office within two weeks.

# 大問3B 長文

本文を読み、次ページのQ27-Q31に答えなさい。

## Mars Exploration

One reason we are interested in exploring Mars is that we hope to understand how life began. Mars is a planet that is similar to Earth. If we discover evidence of past life on Mars, we can study how it differed from life on Earth and why it disappeared. Our interest in Mars did not start just recently. In the seventeenth century, Galileo Galilei looked at Mars using his handmade telescope. About 350 years later, in 1965, a NASA spacecraft called Mariner 4 flew near Mars and successfully took twenty-two images of Mars.

These images were not enough to get evidence of life that existed on Mars. Instead, scientists have sent spacecraft with no humans to Mars in order to gather samples from the rocks and soil. However, only about half of all the attempts to land on Mars have been successful so far. It is said that the great distance from Earth and the fuel problems make landing on Mars difficult, but there is another problem. Mars has only about 1 percent of the amount of air that Earth has. If there were more air, it would perform as a cushion and slow down the speed of a spacecraft for a safe landing.

Once, scientists covered a spacecraft with many huge airbags and sent it with a parachute, and it landed on Mars successfully. But with this method, the spacecraft bounced like a beach ball up to fifteen meters high many times. It became clear that airbags were not suitable for bigger and heavier spacecraft. Until today, scientists have developed various technologies, such as new types of radar and engines for more smooth landing.

Now, NASA is hoping to land the first humans on Mars by the 2030s. Exploring Mars helps us learn about several things. For example, by studying whether life existed on Mars, it is possible for us to know more about Earth's past and future. Scientists also say that Mars might one day be a place where humans could move and live. Exploring Mars can provide humans with useful information for this challenge.

# 大問3B 長文設問 Q27-Q31

前ページの本文を読み、最も適切なものを1つ選びなさい。

*(27)* What did Mariner 4 accomplish?

**1** It brought humans to Mars for the first time.
**2** It measured how close Mars was to Earth.
**3** It went near Mars and took some pictures of it.
**4** It captured the same image that Galileo Galilei drew.

*(28)* Why is it difficult for a spacecraft to land on Mars?

**1** Some countries disagree about developing new technologies.
**2** The distance between Mars and Earth is too close.
**3** There are few scientists who can operate a spacecraft.
**4** There is little air to slow down a spacecraft when landing.

*(29)* Covering a spacecraft with many airbags

**1** is not the best way for every spacecraft to land smoothly.
**2** is one of the most effective ways to find the best landing spot.
**3** is the most recent technique that has been developed.
**4** is one of the methods that has never been tried.

*(30)* Exploring Mars could help humans

**1** reach other planets within a shorter time.
**2** learn about how to live more comfortably on Earth.
**3** know more about the past and future of Earth.
**4** gain useful information about new planets to discover.

*(31)* Which of the following statements is true?

**1** Humans started researching Mars in 1965.
**2** All the attempts to land on Mars have succeeded.
**3** Scientists have tried to send rock samples from Earth to Mars.
**4** Technologies to land spacecraft smoothly have been developed.
